A. Routes of Exposure :		B. Emergency & First Aid Procedures :	
inhalation	In high vapour concentration > 1277 ppm are irritating to eyes and respiratory tract.	expose to fresh air immediately, keep at rest, call for prompt medical attention	
skin contact	low toxicity, but frequent or prolonged contact may irritate skin and aggravate existing conditions	wash w/soap and water	
skin absorption	n / a	n / a	
eye contact	Slightly irritating, but will not injure eye tissue.	flush eyes with large amounts of water until irritation subsides	
ingestion	minimal toxicity, but small amounts of liquid aspirated into lungs during ingestion or vomiting may cause pulmonary injury.	Do not induce vomiting ! Keep at rest. Liquid drawn into lungs may cause pulmonary injury. Get prompt medical attention. Aspiration hazard !
